Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 14 March 2002.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

A review of applicant's election with traverse of group I, and SEQ ID NOs 17 and 18 has been received. The previous restriction requirement contained a typo in line 8. The line should have stated that if applicant elects group I, applicant must further select one primer set from the Tables 2 and 4 for each of the required regions. Further, applicant is persuasive that an election of a probe for each of the amplified organisms is persuasive. Therefore, should applicant wish to remain with elected group I, applicant must also select one probe for each of the pathogens detected. The Examiner contacted applicant's representative, B.J. Sadoff on May 9, 2002 regarding the selection of a primer set for each of the pathogens in claim 1, but applicant's representative did not return an answer. Therefore, the previous restriction requirement is set forth below, without typos.

Election/Restriction

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-5, drawn to a method of detecting infection by amplification with a primer mixture and detecting the amplified products with a probe.

If applicant elects group I, applicant must also select one primer set from Tables 2 and 4 for each of the required pathogens in claims 1 and 3 and select one probe from Tables 3, 4, or 5 for each of the required pathogens in claims 1 and 3.

Group II, claim(s) 6-12, drawn to primers, probes, and kits.

Art Unit: 1648

The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the special technical feature of group I is a method with steps to amplify with a primer mixture and detecting the amplified product with a probe. Group II does not share the special technical feature of group I because the single primers and probes are not required for use in any specific method and the kits do not require method steps, and alternatively, a probe, or a set of primers. Therefore, since the special technical feature of group I is not shared by group II, the claims lack unity of invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
